Microfino

Microcemento tradicional con efecto estuco, de textura suave y agradable. Indicado para crear revestimientos continuos decorativos en paredes con carácter y estilo.

Microfino is a traditional microcement with stucco-effect and smooth textured. It is designed to produce decorative continuous coatings on walls with character and style.

Microdeck

Revestimiento elegante de aspecto natural, ideal para pavimentos. Ligeramente texturado, con menos contrastes y adecuado al tránsito peatonal.

Microdeck is an elegant coating with natural appearance, ideal for flooring. It is slightly textured with fewer shades and adequate to pedestrian traffic.

Microstone

Pavimento continuo de microcemento de alto tránsito. Con propiedades antideslizantes, de color más uniforme y aspecto pétreo, apropiado para exteriores.

Microstone is ideal for high walkability needs. The qualities of this product are slip resistance, uniform in color and stony appearance. It is suitable for outdoors.
